PROOF

by David Auburn

21-28 November 2009

Following the death of her brilliant mathematician father Robert (Tony Donnelly), Catherine (Caroline Main) struggles to come to terms with his legacy.

Inheriting both his brilliance and his instability, she is torn between her sister Claire (Jenny Appleby), who wants to take her back to New York, and Hal (Daniel Cox), a former student of her father's, who tests both her knowledge and her emotions.

When a fabulously exciting new proof is found in the drawer upstairs, relationships fall apart as the identity of the author is called into question...
